

Board Meeting
July 23-24, 2002

Agenda Item:
Attachment 1

To request a Time Extension (TE) or Alternative Diversion Requirement (ADR), please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

Mail completed documents to:

California Integrated Waste Management Board
Office of Local Assistance, (MS 25)
1001 I Street
PO Box 4025
Sacramento CA 95812-4025

General Instructions:

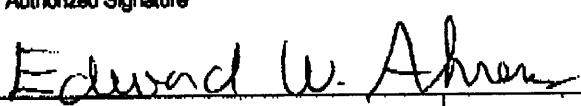

For a Time Extension complete Sections I, II, III-A, IV-A, and V.

For an Alternative Diversion Requirement complete Sections I, II, III-B, IV-B and V.

Section I: Jurisdiction Information and Certification

All respondents must complete this section.

I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:

Jurisdiction Name City of Maywood		County Los Angeles	
Authorized Signature 		Title CAP City Administrator	
Type/Print Name of Person Signing Ed Ahrens	Date June 1, 2002	Phone (323) 562-5712	
Person Completing This Form (please print or type) Richard Fierro		Title Director of Community Affairs Consolidated Disposal Service	
Phone (562) 663-3453	E-mail Address fierro@repsovla.com.		Fax (562) 531-4710
Mailing Address 2495 E. 66 th Street	City Long Beach	State California	ZIP Code 90806

Section II - Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

- ☐ No. If no, stop; not eligible for a TE or ADR.
- ☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☐ **Time Extension Request**

Specific years requested 2002 and 2003

Is this a second request? ☒ No ☐ Yes Specific years requested.
(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (Not allowed for Regional Agencies).**

Specific ADR requested %, for the years .

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years .

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate call number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The City needs more time to meet the fifty percent goal due to the following circumstances.

The City implemented a fully automated residential curbside recycling program in June 1999. Each residence received two automated containers, one 96 gallon Black container for trash and one 96 gallon Blue container for co-mingle recycling. A third 32 gallon green can (manual) for green waste. The City had anticipated that this program would greatly increase the annual diversion rate, possibly achieving 50% by 2000. Unfamiliar with the importance of source separation, Maywood residents improperly, or failed completely to separate green waste, recyclables and trash. This resulted in contaminated cans. The City requires additional time to meet the 50% diversion goal by implementing additional community-wide source separation bilingual education programs to instruct residents on proper source separation and recycling techniques in order to reduce contamination.

In addition, the City wishes to make a concerted effort to implement source separation programs that encourage voluntary participation among the City's commercial and industrial sectors. Programs will include waste audits and technical assistance among the City's top fifty industrial and commercial waste producers. Also, waste and recycling disposal information will be disseminated through the City's Planning and Building Department to contractors obtaining construction and demolition permits. City staff will introduce to City Council a ordinance for all construction with a value of \$50,000.00 or greater, to have all recyclables source separate at construction sites. Contractors must document disposition of recycled materials. This ordinance will also include City Redevelopment Projects. The City will also consider utilizing the Waste to Energy Transformation Facility located in the City of Commerce.

Barriers to meeting the fifty percent goal include.

The inability to monitor redevelopment projects, including inattention to C&D recycling efforts. Another barrier was the residential cross contamination of refuse with recyclables. The inability of the City to develop interest among commercial/industrial businesses in recycling activities can also be considered as a barrier.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City will require the two year time extension in order to fully examine existing programs, assess programs strengths and weakness and where applicable, implement corrective action. New programs planned for the next twelve months include on-site waste diversion audits and technical assistance among the City's top fifty industrial and commercial consumers to improve source separation and recycling. The City staff will need time to introduce to City Council a ordinance to have all construction with a value of \$50,000.00 or greater to source separate all recyclables from job site. The City will also improve information distribution among building contractors obtaining construction and demolition permits. At the time of permit issuance, the City's Planning and Building Department staff will encourage contractors to use the City's commercial waste hauler to recycle construction debris.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The City has implemented in good faith all of the SRRE selected programs, including:

1. Residential curbside collection of recyclables and green waste.
2. Commercial on-site pick-up.
3. Procurement of recycled content products.
4. Outreach, including skits by actors in schools emphasizing the the importance of recycling.
5. Economic incentives

4. Provide any additional relevant information that supports the request.

It is vital to understand that the City of Maywood lies within one of the most impoverished section of the State. The City's predominately Hispanic, low income residential population face significant daily challenges such as obtaining food, maintaining shelter and employment. These basic needs and priorities often, justifiably, overshadow participation in government-mandated programs. Only through methodical, community-wide planning and educational methods will the City of Maywood be successful in encouraging participation in waste diversion. The City will have greater success in the community by conducting bilingual education and outreach to the community of Maywood.

If granted the time extension, the City will expand specific diversion programs among commercial and industrial users to increase participation in the City-wide waste diversion programs and boost the City's diversion rate. These programs will include: on site audits of the City's top fifty commercial and industrial users to encourage voluntary source separation; Ordinance aimed to help contractors when doing a job in the City with a value of \$50,00.00 or greater to recycle construction debris. Contractors will also be encourage to use the City's franchise hauler for proper removal of separated recycleables. Investigate the economic feasibility of hauling to the City of Commerce's Waste to Energy Plant.

Section IV A - PLAN OF CORRECTION					
<p>A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.</p> <p>Attach additional sheets if necessary.</p>					
Residential %		50	Non-residential %		50
PROGRAM TYPE	NEW or EXPAND	DESCRIPTION OF PROGRAM	FUNDING SOURCE	DATE FULLY COMPLETED	ESTIMATED PERCENT DIVERSION
Please use the Board's Program Types. The Program Glossary is online at: www.ciwmb.ca.gov/LGCentral/PARIS/Codes/Reduce.htm					
Concrete/Asphalt/Rubble 4060	expand	The City will adopt an ordinance to develop and encourage recycling of construction and demolition materials. All projects with a value of \$50,000.00 or greater will be subject to an ordinance that requires entities to develop and gain approval of a "Diversion/Recycling Plan" document to be filed with the appropriate City department.	Franchise Hauler	December 2003	1%
Commercial On-Site Pickup 2030 and Technical Outreach	expand	The City will instruct hauler to visit the top 50 commercial and industrial waste generators to encourage them to recycle office paper, cardboard, plastic containers and other recycle by products and all other recyclables as feasible. The hauler will promote the reduced pickup cost for recycled materials.	Franchise Hauler	December 2003	4%
Total Estimated Diversion Percent From New and/or Expanded Programs					5 %
Current Diversion Rate Percent From Latest Annual Report					45 %
Total Planned Diversion Percent Estimated					50 %

Board Meeting
July 23-24, 2002

Agenda Item:
Attachment 1

PROGRAMS SUPPORTING DIVERSION ACTIVITIES			
PROGRAM TYPE	NEW or EXPANDED	DESCRIPTION OF PROGRAM	DATE FULLY COMPLETED
Procurement- 1030	expand	City will adopt a Resolution to buy when ever possible recycle paper and other recycable products.	December 2003
Economic Incentives- 8010	expand	Commercial or industrial customers that participate in the source separation program will have a reduce cost on their recycling bin	December 2003
Eduction (Print)	expand	The City will prepare bilingual printed materials to inform residents on proper source separation and recycling techniques in order to reduce contamination.	July 2003
Ordinances- 6020 (Waste to Energy)	new	Ordinances to require all or part of the commercial and industrial waste to a MRF or a Waste To Energy Facility	December 2003
